

Medicare Advantage Part C

Medicare Advantage Prescription Drug (MAPD) plans are all-in-one Medicare health insurance options provided by private insurers approved by Medicare. These plans integrate Medicare Parts A (hospital insurance), B (medical insurance), and often Part D (prescription drug coverage) into a single, convenient package. MAPD plans frequently include additional benefits such as dental, vision, or wellness programs.

Enrollment Periods:

- **Annual Enrollment Period (AEP):** Also known as the Open Enrollment Period for Medicare Advantage and Medicare prescription drug coverage, this period runs from October 15 to December 7 each year. During AEP, individuals can enroll in, switch, or disenroll from Medicare Advantage plans, including MAPD plans. Changes made during this period take effect on January 1 of the following year.
- **Special Enrollment Period (SEP):** SEP allows individuals to make changes to their Medicare Advantage or Medicare prescription drug coverage outside of the Annual Enrollment Period. Qualifying events for SEP include moving to a new location that is not in your current plan's service area, losing employer coverage, losing or qualifying for Medicaid, switching to a 5-star plan from a lower performing plan.

For a deeper understanding of MAPD Plans and to explore your options further, contact Donna. She can provide comprehensive information tailored to your needs, helping you navigate the complexities of Medicare Advantage Prescription Drug plans with clarity and confidence.
